

Merchandise not as described

What the customer approved and signed, what the evidence said at purchase, and what arrived. The merchant can read the same page as proof of exactly what was approved.

NOT SCANNED YET

Demo plan: built from Cartel's flagship fixtures. The signature is made with Cartel's published demo key (seed: sha256 of "cartel-demo-signing-key"), not a person's passkey, so it proves the files are intact, not who approved them.
